

Why I've enjoyed living here:

- I love all the wood in the home. It feels like a mountain cabin. I describe my cabin as cute.
- I continue to love this cabin. It has fit well with our family, with enough space for children and grandchildren, enough bedrooms and bathrooms, and the living room to be together.
- The kitchen is a workable space. There's plenty of room to prepare meals for my family.
- I have been glad there was room for a full size washer and dryer.
- It's been wonderful that it is so quick and easy to get into Boone.
- I've been glad my cabin isn't in a resort area, with a lot of people coming and going. There's very little traffic in and out.
- I've treasured the quiet, the peace and quiet here. This is the place I've been able to just be still, relax, and enjoy being in a cabin in the woods in the mountains.
